# Retro Boxing: every hit, how much it does

Damage per clean punch. A health bar here is 224 (Grit 70, real fight). Blue = blocked (1/3), red = counter.

## Your punches on him

You at Power 70 (power x1.30). His health bar the same size as yours.

| Punch | Target | Open<br>standing, hands down | Blocking the right spot<br>held guard at that height | Blocking the wrong spot<br>guard high, punch to body (or reverse) | COUNTER: caught throwing<br>he is winding up a punch | COUNTER: caught after a miss<br>he just whiffed | Ducking | Slipping back |
|---|---|---|---|---|---|---|---|---|
| **Jab** | Head | **2.9**<br>1.3% of bar | **1.0**<br>0.4% of bar | **2.9**<br>1.3% of bar | **5.9**<br>2.6% of bar | **7.0**<br>3.1% of bar | MISS | MISS |

## What else changes it

- **Power:** damage x(0.6 + Power/100). Power 50 = x1.10, Power 90 = x1.50.
- **Size:** every 60 lb over 180 = +60% power, but his punches are 22% slower to throw and recover. A 240 lb man hits x1.6, and his bar is 15% bigger.
- **Heart bar full:** x1.5 for 6 s. **Out of stamina for that punch:** x0.5 and slower.
- **Injuries:** a hurt jaw makes head shots land up to +40%; hurt ribs make body shots land up to +67% and get through a body block more; a hurt hand takes up to 1/3 off your own punches.
- **Body shots** do 75% of the damage but drain his stamina 1.6x as fast. When his stamina hits zero while blocking, the guard breaks.
- **Good gloves** (gear) push more through a block. Every blocked punch also costs the blocker stamina.
- **Ducking** dodges jabs and hooks to the head; an uppercut into a duck is a counter. **Slipping back** dodges everything.
